Broughderg Old Cemetery: Sometime in the early part of the New Year an operation will begin to remove trees both on the periphery of and within the Broughderg Old Cemetery. Many of these trees have been causing some difficulty at various graves and keeping them neat and tidy has also been troublesome for families. Some of the trees have also become dangerously tall and could cause damage if they were to fall. This is going to be a costly operation and is the first stage of a 3-stage scheme.

Stage 2 will include drainage and stage 3 some pathways.

Some additional fundraising will be required and we look forward to organising some such events in due course

 MARA (Maximising Access in Rural Areas): Find out if you're missing out on benefits, services or grants by booking your FREE home visit. Referrals can be made for benefits checks, home safety visits, occupational therapy assessments as well as others. You'll also receive a FREE bag containing £25 worth of items to help keep you warm this winter.

Guidelines on Use of Modern Technology when Working with Children – *Use of Photography and Video*: The use of photography and video is an issue of great concern among those working with children. The Diocese recognises that every parish has their own arrangements in relation to its use in schools, youth groups and for the sacraments however the guidelines have been devised below to aid parishes and diocesan groups:

- It is always good practice to seek *written* permission from a parent or guardian before taking any photographs or video footage of children. This written permission must be sought from the parent/guardian or the person who owns the photograph before it can be displayed on promotional materials or websites. This can be incorporated in the registration form when a child joins a group (template permission Resource 10);
- Neither names nor any personal information should be displayed alongside any photographs;
- Special consideration should be given where taking photographs or video footage might be misinterpreted, or the images could be seen as provocative (e.g. beach trip or gymnastics display etc.). It is not to say, however, that with the right planning, these events cannot be recorded and enjoyed.

Photography and video recording are important methods of recording social activity and providing an historic record – illustrating and validating important moments in people's lives. This process is a powerful and personal one, and therefore we must respect the rights of all to make the choice whether or not to be photographed.

Child Safeguarding: If you or anyone you know has a concern or wishes to report an allegation directly to the statutory authorities, please contact the PSNI / local Health and Social Care Trust. If you are contacting the latter, ask to speak to the Duty Social Worker. Alternatively, if you have a child safeguarding concern in relation to any member of Church personnel and wish to report it to Church authorities, please contact one of the diocesan designated persons, who will in turn report your concern to the relevant statutory authorities.
